**PART #
IMT210**

The IMT 210 Bead Breaker for ag and industrial use works on all types of rims including tractor, truck, grader and implement tires. Not recommended for giant earth-mover rims/tires.

**PART #
IMT1800**

IMT's Multipiece Rim Bead Breaker is designed for unseating tire beads on 24" to 63" in diameter OTR rims with pry pockets.

**PART #
IMT300**

The IMT 300 Dual Bead Breaker requires only 4 1/2" of operating space and it extends to 12" working width. Unit applies 10,000 pounds of pushing force. Ideal for ag and industrial dual tire/rims.
